**Federal Asbestos Hazard Emergency Response Act (AHERA)**  
**Notification Information**

Dear Parents, Staff and Community Members:

The Skaneateles School District, in accordance with Section 763.93 of the Federal Asbestos Hazard Emergency Response Act (AHERA), submitted Asbestos Management Plans to the New York State Education Department in 1989. Updated and reviewed annually, these plans contain reports of the accredited asbestos inspector and the reports of the accredited laboratory, which analyze the inspection samples that were taken. The Management Plans also describe:

- Places in each school building where asbestos was identified.
- Response actions taken to date including abatement of asbestos in boiler rooms, corridors, classroom, crawl spaces, and storage areas.

Copies of the Management Plan are available in each of the Principals' Offices and in the District Office. The Plans may be reviewed during regular business hours (8:00 am to 4:00 pm) daily Monday through Friday. Any questions or requests for additional information pertaining to the asbestos plan should be directed to:

## PESTICIDE NOTIFICATION

The Skaneateles School District practices Integrated Pest Management (IPM) in its control of all pests. We use DEC Certified Pesticide Applicators to apply any bait or other chemical pest control products (ant bait, bee and wasp sprays) that may be needed, and only after careful monitoring, exclusion and sanitation practices are first employed.

We control weeds through aggressive over-seeding, aeration and topdressing. The herbicides will be used sparingly and only on non-traffic areas such as mulched flower beds, fence line poison ivy and the perimeter of paved areas as needed.

In accordance with the NYS SED "Neighbor Notification" law, we will be contacting all students, parents and staff through our quarterly newsletters and other timely handouts to give you the opportunity to be notified directly at least 48 hours in advance of any regulated pesticide applications.

If there are any questions or concerns regarding the use of pesticides in our schools or on the grounds, please feel free to call Ms. Elaine MacLachlan, Assistant Director of Facilities II, at (315) 291-2297.
