87	VASTAutism 1		Phone, iPod touch, and iPad. Requires iOS 3.1.3 or later (For full mirror features are only available on devices with a front-facing camera - iPhone 4/4S, iPad2, and iPod touch (4th generation)).	Productivity (6); Support for Daily Activities (7)		VAST-Autism combines the highly effective concept of video modeling with written words and auditory cues to help individuals acquire relevant words, phrases and sentences so that they can speak for themselves. For children and individuals with strong visual skills, this can be a key to developing speech.	Sequencing and organization	VAST-Autism provides unprecedented support for spoken language, combining evidence-based best practices and technology to deliver remarkable results. ... The mirror feature promotes oral motor sequencing and self-monitoring. Using a mirror while practicing speech sounds can provide visual feedback to help individuals improve their muscle coordination and sequencing for speech production. Visual input can be an important source of feedback in developmental apraxia of speech. Individuals should focus on how to produce the target sounds/words from a model and then observe and monitor their own attempts by using a mirror. ... The ability to recognize the written target word(s) will increase functional communication and enhance acquisition of spoken language. The progression of VAST-Autism Videos is as follows: 1. Syllable Repetition 2. Single Syllable Words 3. Multi-Syllabic Words 4. Phrases 5. Sentences This "Core" app represents the first release of the VAST-Autism program. We intend to expand upon this offering through future applications and via the SpeakinMotion web-based platform.		4.99		2		* Good for practicing speaking syllables, words, phrases, and sentences levels. * Provides a visual model for articulation. * Mirror function allows you to watch your own articulation.

101	Middle School Confidential 2: Real Friends vs. the Other Kind		iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.	Support for Daily Activities (7)		Written by teen expert and anti-bullying activist Annie Fox, illustrated by Matt Kindt, and published by Free Spirit Publishing, this graphic novel app enables readers to zoom right into the story world. The app puts decision-making power into the hands of readers, with interactive quizzes that test what a real friend would do in a given situation. With beautiful full-color illustrations and richly layered audio made up of movie-like sound effects and music, Real Friends will be a surefire hit with 8- to 14-year-olds (even those who don't like to read!). As a bonus for parents and teachers, this app puts thought-provoking storytelling and solutions into the hands of teens who deal with tricky friendship issues every day. It will challenge teens to think about their friendships in new ways and encourage them to stand up for themselves and be more empathetic.		FEATURES • Graphic novel format for easy reading • Interactive quizzes test what you would do in a sticky social situation • Page swipe or touch page edges for easy navigation • Auto-save feature remembers your place in the story • Info page allows you to jump to the beginning of any of the 8 chapters • 38 pages of story plus bonus Meet the Cast pages • Two modes of reading: full-page mode or double-tap to zoom-in for frame-by-frame reading • Movie-like sound effects and music (enhanced sound in zoomed-in mode) CONTENT VALUE • Compelling stories that deal with universal tween and early teenage stumbling blocks: + The Boyfriend/Girlfriend Zone + Self-confidence + Communication problems + Conflict resolution + Out of control emotions + Friendship issues + Peer Approval Addiction (doing whatever it takes to fit in) • Thoughtful solutions for teens grappling with personal and social issues • Designed for the hard-to-teach "tween" age group, including reluctant readers • Powerful addition to an advisory or character education curriculum • Ideal for teachers who use technology in the classroom		2.99		2 No	Elementary age- teens and young dults	*Helpful for encouraging initiation for communication in natural settings (e.g. friend groups; playing sports, other social settings); Useful for pointing practice in advancing to the next chapter
102	Middle School confidential 1: Be confident in Who You are		iPhone, iPod touch, and iPad. Requires iOS 4.3 or later.	Support for Daily Activities (7)		This graphic novel app enables readers to zoom right into the story world. With beautiful full-color illustrations and richly layered audio made up of movie-like sound effects and music, Be Confident will be a sure-fire hit with 8-14 year olds. As a bonus for parents and teachers, this app puts thought-provoking entertainment and solutions into the hands of teens who deal with these personal issues every day. It will challenge teens to think about their emotions and behavior in new ways and encourage them to make more respectful, cooperative choices at school and at home. 103	Angry Octopus		iPad. Requires iOS 3.2 or later	Support for Daily Activities (7)		Children relate to the Angry Octopus in this story as the sea child shows him how to take a deep breath, calm down, and manage his anger. An effective stress and anger management technique known as progressive muscular relaxation focuses awareness on various muscle groups to create a complete resting of the mind and body. This engaging story quiets the mind and relaxes the body so your child can let go of anger and fall asleep peacefully.	relaxation	Building on an already great story and beautiful hand drawn illustrations, we have brought the story to life on iPad with great animations and effects. Features - Jump to any page from the index section - Enjoy great animations and effects - Two ways to move forward or back through the pages. Swipe with your finger, or click on the dolphins. - Enjoy Bubble Bursts on touch (kids love this) - High Quality original hand painted illustrations Stay tuned for even more interactivity and animation		7.99		3 No	Young children to elementary age	*Good for break time to re-center typer; *Helps teach the value of difference and could promote self-actualization; *Good for initial pointing practice (e.g. "turning pages")
104	The Social Express			Support for Daily Activities (7)		The Social Express™ is engaging, educational software for children and young adults with social learning challenges. The software is designed to teach users how to think about and manage social situations, helping them to develop meaningful social relationships and succeed in life.	Pointing; conversation starters	The Social Express comes with 16 interactive lessons featuring 30 scenes that are divided into two skill levels. Skill Level 1 targets younger users and/or those who have more difficulty understanding social situations. Skill Level 2 targets users who are aware of social rules but have difficulty using them in real-world settings. Each skill level ends with an interactive review of the Hidden Social Keys that have been learned during the preceding lessons, followed by a congratulatory presentation of a key that unlocks the Clubhouse.		89.99		5 Yes (Social Express Lite; 2.99)	Elementary age- teens and young adult	Scenarios presented could be used as conversation starters for more open ended communication.
