September 27, 2021

Board of Education
Skaneateles Central School District, New York

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Skaneateles Central School District as of and for the year ended June 30, 2021, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, we considered Skaneateles Central School District's internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given those limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We previously communicated to you about Skaneateles Central School District's internal control over financial reporting and on compliance and other matters in our Report on Internal Control over Financial Reporting and on Compliance and Other Matters based on an audit of financial statements performed in accordance with Government Auditing Standards dated September 27, 2021. This letter does not affect our report dated September 27, 2021 on the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Skaneateles Central School District.

This communication is intended solely for the information and use of management, board of education and within the Skaneateles Central School District, and is not intended to be, and should not be, used by anyone other than those specified parties.
